HALLINGDAL
The Hallingdal series is a collection of furniture designed by Arne Jacobsen for the Danish company Fritz Hansen. It is a prime example of mid-century modern design, characterized by its clean lines and functional aesthetic. The collection includes a sofa, a coffee table, and a side table, all of which are designed to be both comfortable and visually appealing. The use of a vibrant blue for the sofa is a bold choice that adds a pop of color to the minimalist setting.
